## **Workshop**

### **Discussion and review of the Proposed Fiscal Year 2026–2027 Budget.**

Finance Director Ashlee Hurst presented the attached presentation titled "Exhibit A".

Finance Director Ashlee Hurst opened by reviewing the budget adoption timeline, noting that multiple milestones remained ahead for Council and public review before final adoption. She outlined several key structural reorganizations proposed for this budget cycle, including the consolidation of solid waste into a renamed Utility Fund, the merger of code enforcement into a new Community Development department, and the reclassification of both the Golf Course and EMS department as enterprise funds. The old IT fund was proposed to be repurposed as a new contingency fund. Ms. Hurst emphasized that priority-based budgeting drove the budget, with beautification and infrastructure as the primary focus areas informed by a community priority survey, representing a total of \$2,873,235 in community investments. Salary adjustments had not yet been finalized pending the start of the new HR Director. A total of 11 new positions were proposed across multiple departments. Ms. Hurst reported that the City was in a strong financial position. The General Fund reserve level stood at 25%, equating to \$4,488,509, and the Utility Fund reserve level at 33%, equating to \$3,234,672. Total budgeted revenues represented a \$7,003,876 increase over the prior year, largely driven by increases in water and sewer, garbage, IDA, and golf revenues. Total budgeted expenditures reflected a comparatively modest \$260,961 increase.
